Career Objective

A dedicated and motivated Computer Science and Engineering graduate with a strong passion for technology, innovation, and professional growth. I aim to apply my technical knowledge, analytical thinking, and problem-solving skills to contribute to organizational success. I am eager to learn, adapt to new challenges, and collaborate with teams to develop effective solutions. My goal is to build a successful career in the corporate sector by demonstrating professionalism, creativity, and a commitment to continuous improvement.

Academic Qualifications

United International University Pass–2026
B.Sc. in Computer Science and Engineering CGPA: 3.05/4.00

Tikatuli Central Women's College Pass–2020
HSC (Science) GPA: 5.00/5.00

Kamrunnessa Govt. Girls' High School Pass–2018
SSC (Science) GPA: 5.00/5.00

Academic Projects

AI-based Automated Course Selection and Pre-advising 2025–2026
FYDP Project

- Developed an AI-based system to automate course selection and simplify the student pre-advising process.
- Applied machine learning clustering techniques to analyze students' course preferences, previous section history, and social connections.
- Aimed to improve section allocation, reduce scheduling conflicts, and enhance student satisfaction through intelligent grouping.

Smart Hospital Management System

- Developed a hospital management system to streamline patient registration, appointment scheduling, and medical record management.
- Designed system functionalities to manage doctor information, patient details, and hospital services efficiently.

Advance Hostel Management System

- Developed a hostel management system to streamline student registration, room allocation, fee management, and daily hostel operations.
- Integrated an AI-powered chatbot to assist students with hostel-related queries and provide quick information.
- Implemented a student loan feature to support students in managing financial needs and accessing loan-related services.

Technical Skills

- **Programming Language:** Proficient in (Python, C, C++, and Java) with a strong understanding of programming fundamentals, data structures, and object-oriented programming (OOP). Skilled in problem-solving, algorithm development, and writing structured, efficient code. Experienced in applying programming concepts to academic projects and software development tasks.
- **Microsoft Office:** Proficient in preparing academic reports, managing data, creating presentations, and completing academic and administrative tasks.
- **Microsoft Excel:** Experience in data entry, data organization, basic calculations, tables, and report preparation.
- **PowerPoint:** Experienced in developing clear and well-structured presentations for academic projects, reports, and university activities.
- **Web Technologies:** Knowledge of HTML, CSS, and JavaScript for developing responsive and user-friendly web interfaces. Familiar with webpage structure, styling, and interactive features for web development.
- **Database:** Knowledge of MySQL for database design, data storage, and retrieval.

- **Figma Design:** Experienced in using Figma to create user-friendly UI/UX designs and interactive prototypes. Familiar with designing intuitive layouts and maintaining consistency in visual elements.

Soft Skills

- **Languages:** English(Professional) and Bengali (Native)
- **Presentation:** Effective multimedia, slide, and oral presentation skills.
- **Teamwork and Project Management:** Experience in academic group projects and a final-year project.
- **Communication:** Understanding of professional and corporate communication.

Achivement

English Proficiency Certificate

By United International University (Confirming English as the medium of instruction)

Personal Information

Father's Name	Anjan Kumar Bardhan
Mother's Name	Anjana Bardhan
Date of Birth	08 March 2002
Nationality	Bangladeshi
Religion	Hindu
Present Address	31 Swamibag lane, Thana: Gandaria , Dhaka-1100
Permanent Address	Village: Pan-Baraid, Post Office: Kapasia, Thana: Kapasia, District: Gazipur
